SEMINOLE – Dr. Ron Stone, retired associate superintendent for human resources for the Pinellas County School District, has authored a new book entitled "Touch Just One Life."

Stone, who is a long time Seminole resident, served in public education for 40 years and released the book as a tribute to those who work in education and who have committed their careers to making a difference in the lives of the students and families they have served. The book is a compilation of poems regarding various aspects of education based on the life experiences of the author.

According to the publisher, Createspace.com: "America's heroes are in our classrooms and schools. 'Touch Just One Life' is a testimonial to the men and women who work each day with the students and families in schools throughout our nation. It is a tribute to their dedication and commitment to helping children achieve success in a dynamically changing society."
